DATA SHEET

INDT420
42" TOUCH SCREEN

Portrait Landscape

Discover a range of touch screens as beautiful as the crisp, sharp images they deliver. With a stylish pure flat, edge-to-edge glass surface, your users will enjoy fast and reliable touch performance using the latest 10-point multi-touch technology.

Built with reliability in mind and suitable for operation 24 hours a day, 7 days a week with a 3 year warranty, they are the ideal solution for an engaging and consistent user experience.

INDUSTRIAL DESIGN BUILT FOR TOUCH
- Beautiful edge-to-edge glass with a silver trim provides a best-in-class appearance
- Manufactured specifically as a touch screen with toughened glass and rugged design
- Front sealed for water and dust resistance enabling easy cleaning and care

HIGH IMAGE QUALITY
- 1920 x 1080 Full HD resolution with crisp, clear image representation and pure glass front
- Balanced edge-to-display distance for perfect appearance in portrait or landscape

TRUE MULTI-TOUCH TECHNOLOGY
- Fast and reliable touch performance using the latest 10-point PCAP multi-touch technology
- Extremely responsive touch and fine touch point accuracy for excellent user experience
- Compatible with Windows multi-touch gestures including pan, pinch & zoom
- Plug and play HID controller with no drivers required for Windows 7, 8.1 and 10
- Some support for macOS 10, Brightsign, Chromebox, AMX TPI-PRO, N2300, some Linux kernels and various media players
- Touch with a finger, stylus and most gloves. No touch point drift
