

DATA SHEET

# KIO420L KIOSK

The KIO420L is designed to deliver high-quality, branded digital experiences and is ideal for Wayfinding and other interactive applications. Its design is simple and effective, delivering a refined, appealing, and universally appreciated form factor that draws users closer.

The optional overhead signage panel attracts your audience from a distance and adds to your branding options of the large 42" landscape display and seamless front fascia. Your users will enjoy the responsive 10-point PCAP multi-touch gestures like swipe, pinch & zoom, and the Full HD 1920 x 1080 screen resolution delivers rich images that will engage them in immersive discovery.

**The ergonomic screen height and angle have been expertly designed so that the kiosk can be comfortably interacted with by anyone, from a standing or seated position.**
